

FAIRFIELD RECREATION'S BUSY HANDS PROGRAM

Busy Hands is a play-based educational program promoting socialization through free/social play as well as daily recognition and writing (letters, names) math practices, science experiments, and fine motor skill activities. In addition, we emphasize guided independence, in that the children are well monitored, but able to make some activity choices on their own, whether they work alone or in small groups. If you would like further information, please contact [*busyhands@fairfieldnj.org*](mailto:busyhands@fairfieldnj.org) for a timely response.
